

Tree of life Theory

Tecnum conference

Jose Luis de Carvalho Azpiazu

Overview

- ▶ This is not a new idea
- ▶ Consciousness arises with a new logic architecture
- ▶ New type of mindst not only brain capacity
- ▶ Monotonic logic overuled by broad generalizations systems
- ▶ Generalizations brought abstract thinking
- ▶ Alcalois crostalk step in the way

How homo sapiens Rise into conciousness

- ▶ Myths
- ▶ Baldwin effect
- ▶ Information processors arquitecture
- ▶ Logics
- ▶ Consistency rule
- ▶ Alkaloids

Alkaloids

- ▶ The proposal is that the crosstalk over the different neurotransmitter systems started to change the brains of some early homo specimens, and the inherent consistency needed on their mental processes was flexibilized, this more flexible system permitted greater representation possibilities and natural selection started to favor it with the Baldwin effect.
